Morgan G. Barnes

1416 Richardson Street, Baltimore, MD, 21230

MGBarnes.com | Morgan.Barnes@rice.edu | MGBarnes_ | 512-466-3421

RESEARCH INTERESTS

Polymers, liquid crystal elastomers, shape-shifting materials, covalent organic frameworks

EDUCATION

Rice University **Houston, TX**
Ph.D., Materials Science and Nanoengineering *May 2016 - Fall 2020 (Expected)*
- Advisor: Dr. Rafael Verduzco
- Dissertation (working title): "Designing anisotropic polymers: from shape shifting elastomers to strong two-dimensional films"

Duke University **Durham, NC**
M.S. Mechanical Engineering and Materials Science *August 2013 - May 2015*
- Advisor: Dr. Piotr Marszalek
- Thesis: "Self-assembled protein-based biomaterials with tailorable physical properties"

Baylor University **Waco, TX**
B.S. Mechanical Engineering, Honors *August 2009 - May 2013*
- Advisor: Dr. David Jack
- Honors Thesis: "Modeling and Predicting the Behavior of Viscoelastic Materials"

EXPERIENCE

ORAU Journeyman Fellow **Aberdeen, MD**
Army Research Laboratory *January 2020 - August 2020*
Working in the Weapons and Materials Research Directorate at ARL to synthesize 2D covalent organic framework films for high-strength high-toughness films

Graduate Research Assistant **Houston, TX**
Rice University *June 2016 - Fall 2020 (Expected)*
Working in the Materials Science and NanoEngineering department to develop multi-functional polymers including stimuli-responsive soft actuators and mechanically strong thin films

Research Technician **Houston, TX**
Rice University *January 2016 - May 2016*
Worked in the Bioengineering department operating a high resolution microendoscope in a clinical environment and developed data analysis protocols using Python

MRSEC Fellow **Durham, NC**
Duke University *August 2013 - May 2015*
Worked in the NSF Triangle Materials Research and Engineering center (MRSEC) using AFM force spectroscopy to investigate the crosslinking of click-coupled poly-protein gels

Undergraduate Research Assistant **Austin, TX**
University of Texas *May 2012 - August 2012*
Worked in the Geotechnical Engineering department studying the wetting and drying curves of soil and created data acquisition systems using LabVIEW

LEADERSHIP AND ENGAGEMENT

ARO High School and Undergraduate Apprenticeship Program **Houston, TX**
Mentor *June - August 2019*
Mentored an undergraduate and high school student during the summer through the Army Research Office (ARO) Undergraduate Research Apprenticeship Program (URAP) and High School Apprenticeship Program (HSAP) grant to develop self-pumping microfluidic liquid crystal elastomer devices

NSF Nano in Schools **Houston, TX**
Guest Lecturer *January 2019*
Was a guest lecturer at local high school chemistry classroom to expose students to graduate school, research, and shape-shifting materials

NSF Research Education for Teachers (RET) **Houston, TX**
Mentor *June - August 2018*
Mentored a high school teacher in a summer research project as part of the NSF Nanosystems Engineering Research Center for Nanotechnology-Enabled Water Treatment (NEWT) RET program

CampSpark! **Houston, TX**
Activity Leader *July 2017*
Designed and taught a hands-on introductory polymer lesson for CampSpark!, a week long research camp for local refugees hosted by Rice University

Scientific Research Design (SRD) **Houston, TX**
Mentor *July 2016 - May 2017*
Mentored a local high school student in a research project for the school year as part of a SRD high school course

Rice's Institute of Biosciences and Bioengineering (IBB) Stem Engagement **Houston, TX**
Mentor *July 2016*
Mentored a high school student from the Science Academy of South Texas for a week long research experience hosted by Rice's IBB

Baylor Capstone Engineering Courses **Waco, TX**
Project Manager *January - December 2012*
Chosen by professors to act as project manager for two separate capstone Baylor engineering courses

Goodwill Adult Education **Waco, TX**
Tutor *September 2010 - May 2013*
Volunteered regularly with the local *Goodwill*'s ongoing education classes to prepare adults for the GED

TEACHING

MSNE 303: Junior Lab **Houston, TX**
Teaching Assistant *Spring 2017, 2018, 2019*
Organized, instructed and graded the labs for the departmental undergraduate junior lab

MSNE 555: Bio-Mimetic Strategies **Houston, TX**
Guest Lecturer *Spring 2019*
Guest lectured for the upper level bio-mimetics course covering soft shape-shifting materials and anti-fouling techniques

PUBLICATIONS

6. **M. Barnes**, S. Sajadi, S. Parekh, M. Rahman, P. Ajayan, R. Verduzco. Reactive 4D Printing of Shape Programmable Liquid Crystal Elastomers. *Submitted*. 2020.

PRESENTATIONS AND POSTERS

American Chemical Society Spring Meeting **Philadelphia, PA**
Contributed Talk, Cancelled due to COVID-19 *March 2020*
Reactive 4D Printing of Mechanically Programmable Liquid Crystal Elastomer Actuators

American Physical Society March Meeting **Denver, CO**
Contributed Talk, Cancelled due to COVID-19 *March 2020*
4D Printing of Mechanically Programmable Shape-Shifting Liquid Crystal Elastomers

International Liquid Crystal Elastomer Conference **Eindhoven, Netherlands**
Contributed Talk *September 2019*
Reactive 3D-Printing of Liquid Crystal Elastomers for Non-Linear Actuation

American Physical Society March Meeting **Boston, MA**
Contributed Talk *March 2019*
Programming Complex and Arbitrary Shape Changes in Liquid Crystal Elastomers

Texas Soft Matter Meeting **Austin, TX**
Contributed Talk *August 2018*
Mechanically Programming Complex Reversible Shape Changes in Liquid Crystal Elastomers

Smalley-Curl Institute Summer Research Symposium **Houston, TX**
Selected Talk *August 2018*
Flat Sheets to 3D Images and Back: Programming Shape-Shifting Elastomers into Flowers, Faces, and More

American Chemical Society National Meeting **Washington DC**
Poster *August 2017*
Exploring the uses of a two-stage thiol-acrylate reaction for liquid crystal elastomers

Smalley-Curl Institute Transdisciplinary Symposium **Houston, TX**
Contributed Talk *February 2017*
Extrusion-Aligned Liquid Crystal Elastomer Fibers

Texas Soft Matter Meeting **Dallas, TX**
Contributed Talk *August 2016*
Step-Growth Liquid Crystal Elastomers with Low Glass Transition Temperatures

North Carolina State University Industry Symposium **Raleigh, NC**
Poster *February 2015*
Self-Assembled Biomaterials Using Streptavidin and SpyTag-SpyCatcher

Duke University Frontiers Day **Durham, NC**
Poster *May 2014*
Self-Assembled Protein-Based Soft Materials with Tailorable Viscoelastic Properties

AWARDS AND HONORS

- ORAU Journeyman Fellowship, Army Research Laboratory, 2020
- Best Student Lecturer award, International Liquid Crystal Elastomer Conference, Netherlands, 2019
- Future Faculty Fellowship, Rice University, 2019
- NSF Future Faculty Workshop Travel Award, Princeton University, 2019
- Best Presentation award, Smalley-Curl Institute Summer Research Symposium , Rice University, 2018
- Outstanding Teacher's Assistant Award, Rice University, 2018
- Best Presentation award, Smalley-Curl Institute Trandisciplinary Symposium , Rice University, 2016
- Triangle Materials Research Science and Engineering Center (MRSEC) Fellowship, 2013
- Outstanding Engineering Senior award, Baylor University, 2013
- Who's Who Among Students in American Universities and Colleges award, Baylor University, 2013
- Presidents Gold Scholarship, Baylor University, 2009-2013

KEY SKILLS

Matlab, Python, LaTeX, DMA, DSC, TGA, AFM Spectroscopy, NMR, GPC, XRD, organic synthesis, FTIR, rheology

ASSOCIATIONS

- American Chemical Society
- American Physical Society
- Pi Tau Sigma, National Mechanical Engineering Honors Society
